

Secondary Education Engagement & Development Plan

CGIA is planting a "SEED" to grow the talent pipeline & we are here to help you!

We are interested in learning more about your secondary training program and the partnership you have with industries in your community. Our members are interested in connecting with you as a liaison to assist you with growing the talent pipeline for targeted industries along the central gulf coast region through direct engagement and support of your program.

About CGIA

- Leads a nationally recognized evaluation & endorsement process for regional industrial craft training programs to ensure these operate at or above industry standards and meet the workforce needs of the members industries.
- Provides CGIA Regional Labor Market Analysis for accurate, regional industrial craft labor supply-and-demand data with perspective on national trends to assist members with project and turn around planning.
- Organizes CGIA Best Practices Forums to allow member companies to share safety, human resources, maintenance, or productivity practices as well as discuss other key issues.
- Provides Industrial Craft Wage Bulletin for current craft wages across the region to assist in project planning and ensure competitive wages for employees and contractors.
- Serves as the Accredited Training Sponsor for NCCER Programs.
- Matches graduates of CGIA-endorsed programs with member companies via CGIA GradConnect.
