

## General Membership Meeting

Don't miss out on our General Membership Meeting, Thursday, November 2, 2023 at Hargrove Engineers + Constructors. The CGIA General Membership Meeting is an annual gathering of our industry and education partners with food, networking, and a keynote presentation. At this annual meeting, we also recognize our sponsors, Safety Member of the Year, and the winners of our Sculpture Contest. New this year, we will also have an opportunity for our training partners to apply for an equipment donation for their programs. [Click here](#) to register.

## Don't Forget to Apply for our Annual Awards

Schools may apply for an equipment donation to benefit their industrial programs. Applications are due September 30, 2023.

**Download Equipment Donation Application**

Apply now for the CGIA Safety Member of the Year Award, recognizing the outstanding safety performance of CGIA industrial owners and contractors. Applications are due October 12, 2023.

## Donate to our Scholarship Fund

Based on feedback from our Workforce Development Committee, we have decided to create a scholarship endowment fund to aid students enrolled in our training partner member programs with special financial needs. The committee discussed how some top-performing students have to drop out of a program due to a lack of funds, and often they just need a small amount of gap funding rather than a full ride. Be one of the first to contribute to our endowment to help these students. Use the QR code to go to our donate page.

---

## Welcome to our New Members

**Conco**

## Meet our Board Member Corey Harris

Corey Harris has worked in the chemical production industry for 17 years and joined Evonik Industries in 2011 in the Process Technology & Engineering group. He has a BS in Civil Engineering from The University of South Alabama and is certified as a Professional Engineer. Corey has held numerous technical roles in production facility design and capital project execution including managing the Civil/Structural/Architectural design department. He is currently the North America region Contractor Management Officer. In addition to contractor management Corey is responsible for Shutdown Management at Evonik's Mobile facility. Corey, his wife Ashley, and their two girls live in Ocean Springs, MS.
